A film by Joonas Berghall and Mika Hotakainen

This multi-media resource list, compiled by Jean-Marie Miele of the San Diego Public Library, provides a range of perspectives on the issues raised by the upcoming POV documentary *Steam of Life*.

From a land of long, dark winters comes Steam of Life, a moody, comic and moving study of Finnish men as framed by the national obsession with the sauna. There, they come together to sweat out not only the grime of contemporary life, but also their grief, hopes, joys and memories. Beautifully and hauntingly shot, the acclaimed film provides a surprising glimpse into the lives of Finnish men and a remarkable depiction of the troubled and often reticent hearts of contemporary Western men.
